

Master Distribution System

The Systems House, Inc. is proud to announce the availability of our Master Distribution System (MDS) suite of products with exclusive pricing for the IMCO Membership. MDS is an integrated ERP solution designed to fully manage the operation of a Medical Distributor. With over fifteen years of dedication to Medical Distribution, MDS is designed and supported by people who have made servicing companies like yours successful.

The Systems House

Since 1979, The Systems House, Inc. has earned a reputation for delivering high quality Supply Chain Solutions. Our corporate philosophy: "Our word is our bond" has led to our many long term relationships with our customers. Our entire team is dedicated to your success. Our commitment "to understand the complex needs of our customers and create value-added solutions that enhance the competitiveness, profitability, and customer satisfaction of our clients" ensures that MDS stays ahead of industry trends and standards. The professionals at TSH will work with you to address your business needs and provide you with a superior system at a very affordable price.

MDS - Supply Chain Management for the Real World

Master Distribution System from The Systems House, Inc. is a proven integrated solution to manage the operation of your business. With MDS' complete suite of products, you do not need to find multiple vendors to fulfill your software requirements. The MDS system incorporates all aspects of your business

including Customer Service, Purchasing, Warehouse and Inventory Management, CRM (Customer Relationship Management), Integrated Crystal Reports, and Financial Management (A/R, A/P, GL). MDS is available on both a SAAS (Software as a Service AKA Timesharing) or on an in-house license basis.

Other Optional Modules Include:

- RemoteNet Business to Business E-Commerce
- Electronic Drug Pedigree Tracking
- MDS Warehouse - Wireless Warehouse Management (WMS)
- Sales Laptop System
- Delivery Master/ Package Tracking
- Document Management System

MDS500 – a proven, cost effective and easy to implement MDS solution

MDS 500 is a subset of the MDS application optimized to serve the needs of the smaller Medical Distributor. It is provided using a "Software as a Service" model based on affordable monthly subscription fees, and fixed start-up costs. With this approach, the client enjoys all the benefits of the MDS system on a fully supported basis, without the need to commit to the purchase of an in-house system, or to the hiring and training of additional personnel to manage the system.
